**Memory:** 256 MB RAM

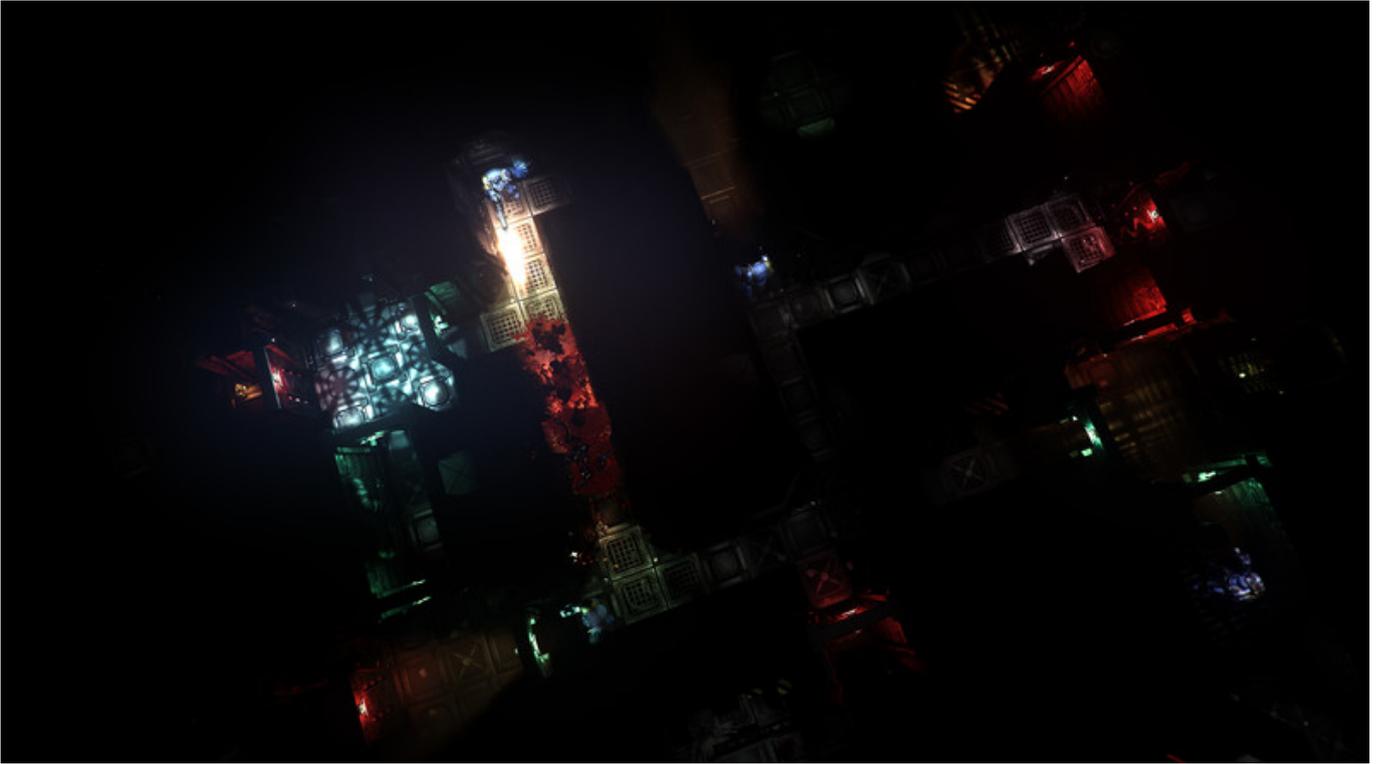

**Graphics:** NVIDIA® GeForce® 8600 or better

**DirectX:** Version 9.0

**Sound Card:** Standard audio device

English,French,German

---

My play time (16 hours) is what you will spend on one playthrough without much grinding and if you know what to do and were to go. As long as I know this game by heart (played it long time ago), it was just a refresher before playing Book 2-3 and Balrum. If you expect to try different builds in Book games please consider to go with warrior in this Book as next Books will add useful additional content and mechanics to test your healer and mage.

#### Performance.

Flawless as usual :) My OS is Linux - Debian 9 x64. This game is what we can call a true Linux port. works as expected, no issues found. It uses somehow limited screen resolution 800x600 (blends well with game old style look and feel) so make sure to select fullscreen and use 4:3V5:4 screen if you have one instead of widescreen to keep original picture.

10V10 highly recommended! it's a real gem, and it's your lucky day to find this game FREE

. Perfect for couch party!!

addictive gameplay and heavy armored bosses.

it's a lot of fun when playing with friends (throwing stool at each other).

i recomend this game. good game

good story

nice arts

more interactive than others HoG with some news styles

interesting bonus (the bonus adventure is short, but the collector edition got wallpapers, concept arts and all musics that can be downloaded directly from the game)

8,5/10 worth the price. \u05e4\u05e9\u05d5\u05d8 \u05db\u05d9\u05e3 \u05e2\u05d5\u05dc\u05de\u05d9  
\u05d1\u05d7\u05d9\u05d9\u05dd \u05e9\u05dc\u05d9 \u05dc\u05d0 \u05d9\u05d3\u05e2\u05ea\u05d9  
\u05e9\u05de\u05e9\u05d7\u05e7 \u05d0\u05d7\u05d3 \u05d9\u05db\u05d5\u05dc \u05dc\u05e9\u05dc\u05d1  
\u05d1\u05ea\u05d5\u05db\u05d5 \u05e2\u05d5\u05dc\u05dd \u05e9\u05dc\u05dd \u05e9\u05dc  
\u05e4\u05e2\u05d9\u05dc\u05d5\u05ea \u05db\u05d5 \u05de\u05d4\u05e0\u05d4 \u05dc\u05de\u05e9\u05d7\u05e7  
\u05d4\u05e4\u05e9\u05d5\u05d8 \u05e9\u05dc \u05e2\u05d5\u05dc\u05dd  
\u05d4\u05d2\u05d9\u05d9\u05de\u05d9\u05e0\u05d2 \u05de\u05e9\u05d7\u05e7 \u05d4\u05e9\u05e0\u05d4  
. a better version of Hunie Pop, for sure

---

If you are expecting a playable game look elsewhere. This is one of the few games where I really feel I should get my money back. It is just terrible.. A great arcade experience!!

Awesome Devs!

Had an issue getting it working, but..

Fixed the issue after reinstalling!. this game has bad meta reviews, but it's really not that bad. It's a fun little indie-game that brings back memories of early to mid 90's side-scrolling shoot-em-ups  
. Fantastic game, 2 chapters in and I'm sold. Nailed it.. This was one of the first games i ever got on steam, when i was 9 i would play this game with my bipolar/ autistic brother. I would be the worm guy and he would always be the big magma dude. Back then he was happy, or at least happier than he is rn. Jessus, the nostalgia. This game gave me so many memories.. While the game is not a masterpiece, it does prive you one or two hours of fun and you'll have to use some strategy to beat it.. Good game but need a better english version to be playable. A game I played back on the good ol xbox 360 days. Thought I would be able to trust the devs since this game is from the prime time of games where devs actually released quality games but no they evolved with others like EA. Unkept promises and scams that have broken my trust on any early access game that will ever be again.. In all honesty, this episode feels lacking. I just didn't feel like it added anything of importance to the story that I didn't already learn in Episode 1. In fact I often felt that some parts were explained with more depth and reflection in that game than actually seeing them here. Anyway, the game is free, so nothing is lost from downloading it, but personally I feel nothing was gained either and that's what determines my score.
